## CONTENTS / SOMMARIO

|                                                                                                                                                     |     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| PAOLO LIVERANI, <i>Ferdinando Castagnoli: the value of a method.</i>                                                                                | 7   |
| GUIDO ROSADA, <i>Two topographers from the Veneto and Friuli: Plinio Fraccaro and Luciano Bosio.</i>                                                | 17  |
| STELLA PATTIUCCI UGGERI, PIER LUIGI DALL'AGLIO, <i>Nereo Alfieri.</i>                                                                               | 31  |
| ALEXANDRE SIMON STEFAN, <i>Dinu Adamesteanu (1913-2004).</i>                                                                                        | 101 |
| OSCAR BELVEDERE, <i>Giovanni Uggeri and his investigative methodology in the field of ancient topography.</i>                                       | 113 |
| CAIROLI F. GIULIANI, <i>Earthquake and wall structure parameters often overlooked or obscured in architectural archaeology.</i>                     | 141 |
| ALEXANDER V. PODOSSINOV, <i>Influence of periplic literature on the coastal road system of the Tabula</i>                                           | 165 |
| ANNA PAOLA MOSCA, <i>Interconnected landscapes. Between the plains and the Alps.</i>                                                                | 177 |
| PIER LUIGI DALL'AGLIO, CARLOTTA FRANCESCHELLI, <i>Good practices for the management of undesirable waters in the Roman city: Some case studies.</i> | 203 |
| GIULIO CIAMPOLTRINI, PAOLA RENDINI, <i>Ancient and recent finds for the Roman road from Lucca to Florence.</i>                                      | 223 |
| RICCARDO CHELLINI, <i>Topographical notes on the Fiesolan tular and on the Maremmana di Fonte Santa road.</i>                                       | 237 |
| GIUSEPPE SCARDOZZI, <i>The stadium of Hierapolis of Phrygia: a ghost monument in the Lykos valley.</i>                                              | 287 |
| English Summaries                                                                                                                                   | 327 |
| Note to contributors                                                                                                                                | 331 |
